ANALYSIS OF AL6061(ALUMINIUM)

Kathir college of engineering

05/2020 - 03/2021

Achievements/Tasks

- The Aluminium alloy 6061 and Magnesium alloy AZ31 plates of 6 mm thickness are welded in circular butt joint geometry by friction stir welding (FSW) process, using CNC vertical milling machine. Process parameters such as welding speed and tool rotational speed play an important role to obtain a better weld joint for dissimilar metals/materials.
